HULL INFORMATION

Hull Material: Fiberglass

ENGINE

Engine 1

Engine Make: Yamaha
Engine Model: F350 5.4L
Engine Year: 2015
Engine Type: Inboard
Power HP: 350.00
Fuel Type: Gas/Petrol
Engine Hours: 160.00
Engine Location: Port

Engine 2

Engine Make: Yamaha
Engine Model: F350 5.4L
Engine Year: 2015
Engine Type: Inboard
Power HP: 350.00
Fuel Type: Gas/Petrol
Engine Hours: 160.00
Engine Location: Starboard

FULL DETAILS

VESSEL WALKTHROUGH

Pursuit engineered the 365i hull specifically for dependable Yamaha Outboards and features a sharp entry, 20 degree deadrise, traditional strakes, reverse chines and a fully enclosed engine compartment. While the detail and construction throughout is traditional yacht quality, her styling is more modern.

At the bow, the standard horizontal windlass system finishes at the stem with a neat anchor recess notch for the stainless steel plow style anchor. Optional bow sun lounges feature an adjustable backrest, handrails and drink holders. A heavy duty bow rail and stanchions accentuate the sheerline and installation at just the right height gives added security while walking forward to the lounge.

The single piece windshield is fully integrated with the fiberglass hardtop and comes complete with a large sunroof to bring the outdoors in on those magical days. The sweeping windshield provides a clear view for pleasurable navigation. The oversized helm chair is complimented to the port side by a comfortable seating arrangement for passengers to share in the overall feel of the boat from the helm. The aft cockpit is highlighted by an extra large lounge, cushioned throughout for additional fun and entertaining. A fiberglass entertainment center conceals a sink with freshwater, electric grill and storage below. A neatly concealed trash bin tilts out from the port side adjacent interior gunwale wall. Within reach the stainless steel refrigerator keeps your refreshments cold and ready to serve.

Natural light filters through six hull side windows port and starboard and three deck windows overhead, adds to the openness of the cabin layout. A galley, head, convertible dinette and full beam midcabin are expertly engineered to maximize space. The forward convertible dinette becomes an island berth when you pull each seat inboard. The mid cabin provides privacy while cruising with guests.

HULL

- Hand laminated hull with vinyl ester resin and engineered fabrics
- Infused fiberglass structural grid system with molded finish and integrated bilge water management system
- 5-ply resin infused composite transom system with patented transom reinforcement grid
- Trim tabs with indicator lights and auto-retract
- Bronze thru hull fittings below water line
